www.thevgolfclub.com

Situated among 350 acres of beautiful grounds adjacent to Le Meridien Vilnius, our magnificent 18 hole championship golf course has been constructed with U.S.G.A. specification greens, complimented with sand based fairways, and is the only PGA design golf course in the Baltic States.

The golf course is a spectacular modern design that integrates the best elements of Scottish Links with American design features and is always in tournament ready condition. Cutting through rolling hills and natural lakes and streams, risk and reward decisions are made on almost every shot. We are confident of a fantastic golfing experience for every level of golfer due to the generous landing areas and a choice of 4 sets of tees.

Complementing the 20-bay covered driving range there is also a superb short game area and putting green for the golfer to sharpen their chipping and putting. The 9-hole Par 3 Bridgewater course gives beginners and children the opportunity to experience golf whilst providing the more experienced player with a chance to work on their short game. The Bridgewater is laid out on our beautiful grounds through a silver birch forest on the banks of the lake and includes two island greens to test the nerves of even the experienced golfer! There are even 2 longer holes to allow for full swing shots.
